## ARRIVAL OF THE "PANAMA."

## NOMINATION FOR PRESIDENT.

## THE WASHOE WAR.

## THE STATE OF EUROPE.

ETC.....ETC.....ETC.

By the arrival of the steamship Panama from San Francisco, at Esquimalt, yesterday morning, we have one week's later intelligence. The news will be found highly interesting. The dates are to the 15th inst.

## California.

A dispatch from Virginia City, Carson Valley, dated the 10th of June, states: Col. Hay's command had just arrived. They will be at Chinatown, and discharged to morrow; all well. Captain Story died on the evening of the 7th. We drove the Indians beyond Pyramid and Mud Lakes. They have scattered. We could not get at them, after the battle of the 2d of June. They have scattered, we don't know where. A fight took place between Isaac Stimpson and David Webber, this afternoon. Both wounded. Webber thought mortally.

Some seventy printers followed in procession the body of Isaac McLeod to Lone Mountain, on the 13th, in San Francisco. This is the second interment within a week that the Eureka Typographical Union has been called upon to attend.

A fire occurred on the 13th, on the east side of Third street, between Bryant and Harrison, which destroyed six thousand dollars' worth of property before it could be subdued. The sufferers were Conrad Berghofer, David Linder and John G. Blatter.

A grand Republican Ratification meeting was held in San Francisco on the reception of the news that Lincoln and Hamlin had been nominated by the Chicago Convention. Great enthusiasm prevailed.

Edgar Randall, a highly respectable citizen of Marin county, was shot and killed by a squatter named Miller, on the 9th inst. Miller was arrested, and after an examination, acquitted of all blame.

Judge Terry's case (in which he is charged with murdering Senator Broderick) has been transferred to Marin county.

J. P. Vanderlooy, a native of Brussels, and a jeweler, committed suicide in San Francisco on the 11th inst., by taking morphine. He was 35 years of age, and leaves a wife.

The Pony Express has left Carson City for the States under a strong escort.

The news from Southern California represent this season as the most promising one for farmers since California was settled by the whites.

Wm. Probyn was drowned in the Klamath river, on the 11th.

John Hughes was killed at Etna Mills, in Scott Valley, on the 9th. Deceased was a native of Ireland, aged 52 years.

The saw-mill belonging to Messrs. Cleland & McMurrin, in Shasta Valley, was burned on the 11th. Loss \$5,000. Supposed to have been the work of Indians.

It is confidently asserted that Oregon has been carried by the Republicans.

Levi Parsons, the great bulkheader, has gone to Carson Valley, probably with a view to recuperate his fallen fortunes.

A company of Marysville firemen (the Warrens) have been on a visit to San Francisco.

A writer in the San Francisco Alta denounces Washoe as a humbug.

## The States.

The defalcations of Isaac V. Fowler, Postmaster of New York, are reported to be \$155,000. George Law and G. A. Conover are his bondsmen to the amount of only \$75,000, and it is said they cannot be held for this amount, as the deficit commenced before they became responsible. Fowler disappeared on Saturday, and has not since been heard of, though Marshal Rynders has a writ for his arrest. It is said that the money has been loaned to political friends, and that the exposure is now made for political effect. The Treasury Solicitor visited New York, and with the U. S. District Attorney, commenced proceedings against the bondsmen. Since the commencement of the investigation, other deficiencies have been discovered. The appointment was tendered J. F. Butterworth, but declined. John A. Dix was then appointed, and the appointment confirmed by the Senate.

The Eastern papers are filled with accounts of the proceedings of the Republican Convention at Chicago. Abraham Lincoln, of Illinois, has been nominated by the Republicans as their candidate for the office of President of the United States; and Hannibal Hamlin, of Maine, has received the nomination for Vice President. The portrait of Senator Broderick, draped in mourning, was in the Hall during the proceedings. The last ballot for President stood: Lincoln, 354; Seward, 110 1/2; Dayton, 1; McLean, half a vote. The Republicans throughout the West have gone wild over the nomination of their pet; and one of the papers says that everybody had a headache next morning.

The New Orleans Delta, speaking of the card of Capt. J. C. Fayson, inviting all Nicaraguans now in the United States and desirous to return to Central America, says a number of emigrants have left that city for Ruatan, at the invitation of the British residents of that island; and it is possible that the same island may become a preliminary stopping place for returning Nicaraguans. So it appears we have not heard the last of these modern buccaneers yet.

A message was received in the U. S. Senate, on the 20th May, from the President, and taken up. The message calls the attention of Congress to the capture of the slave "Wildfire" with five hundred and four negroes, by Capt. Craig, of the "Mohawk," on the 26th of April.

The Japanese Embassy have had a grand reception at the White House.

Senator Seward, it is said, has resolved to retire to private life.

The report that Chief Justice Taney is unwell, has been contradicted.

## Europe.

In reply to the proposals of France, England consents to adopt as a basis of the Conference, article 92 of the final act of Vienna, which refers to the neutralization of Chablais and Faneignay. England reserved the right to make proposals at the Conference relative to the mode of neutralization. This declaration increases the probabilities of the assembling of the Conference.

The Adriatic reached her dock at noon.

The Prussian Minister denies any alliance with Austria.

The Archbishop of York is dead.

The "Great Eastern" will sail from Southampton for New York on the 19th of June.

Garibaldi had left for Sicily, with an expedition of troops.

A Turin dispatch says the insurrection is spreading throughout the Island of Sicily, and is spontaneous. The royal troops are in possession of the town, and are blockaded between the sea and the insurrectionists in the interior. Naples advises of the 4th report tranquility throughout Sicily, while other dispatches confirm the above.

From Turin rumors were current that the relations of Russia and Turkey were again assuming a bad aspect, and that Prussia and Denmark were on the eve of a rupture with Wolsstein, but they were thought to be manufactured for speculative purposes.

M. Thouvenel had issued a despatch showing that the annexation of the neutralized districts of Savoy will not change the situation of Switzerland.

A dispatch from Berlin says the Chamber of Deputies unanimously granted supplies for placing the army upon a war footing.

The Herald's Paris correspondent says the camp at Chalons will number 40,000 troops, under Marshal McMahon, and will be the centre of the army of observation along the Rhine frontier. The whole force, numbering 90,000, will be under the command of the Emperor.

The continued advance of breadstuffs in France will put into operation the sliding scale, which will cause a suspension of exports of corn to England. The bill modifying the tariff on wool, cotton and other raw materials, had been approved by the legislative body—249 against 14.

The Emperor of Russia extends to the inhabitants of Poland, on the occasion of the majority of the heir apparent, pardons as regards confiscation of property inflicted on those who took part in the insurrection of 1833.

It was asserted that a conspiracy against the life of the Emperor Alexander, or at all events to compel him to abandon his emancipation projects, had been organized at St. Petersburg. Some 150 or 200 persons, chiefly among the Noble Guard, were said to have been arrested. Certain suspected regiments were promptly sent out of the city, and other measures of precaution were taken.

It seems pretty well settled that Heenan and Sayers will have another contest for the championship.

Garibaldi has gone to aid the Sicilians in their struggle for liberty.

It was stated that the American subscription in Liverpool for Heenan reaches £700.

## NOTICES.

## \$300 Reward!

VICTORIA, May 23, 1860.

WE, THE UNDERSIGNED, DO AGREE to pay the amounts set opposite our names, for the arrest and conviction of the party or parties who attempted to set fire to the premises in Waddington alley, on Saturday night last:

## TO ADVERTISERS.

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

Saturday Morning, June 23, 1860.

## Decimal Currency.

Among the improvements of the age may be ranked a decimal currency. Canada, Nova Scotia, Prince Edward's Island, and we believe New Brunswick, have adopted it. Not merely the great advantages either in educating children, or in saving time and labor in counting money or in keeping accounts, have urged its importance on the eastern provinces. The intimate commercial relations existing between them and the United States, have aided materially in laying aside the fractional complications of British currency for the decimal system. The States being a principal market for their exports as well as imports, after buying or selling there, every financial transaction had to be translated into pounds, shillings and pence, before a bill of exchange could be drawn, or the American commodity sold. Its manifest superiority over the old system, and the advantage resulting from an assimilation of the inter-colonial currency to that of their powerful neighbor, has consequently rendered it the law of the land. Happily for us, though similarly circumstanced,—except, perhaps, drawing a greater proportion of our supplies from the United States than any other North American province, in proportion to the sum total of our imports, we have adopted, by common consent, a decimal currency. The immigration in 1858 from the States, settled forever that the dollar should be the unit of these provinces, and not the pound. Were many other progressive principles to become a part and parcel of our laws and customs, with a common consent, it would be matter of congratulation. But even a decimal currency here has only been sanctioned and adopted by the trade and commerce of the country. No statutory enactment has repealed the Imperial currency, nor made it incumbent on the departments of the Government to do business only in dollars and cents. Several bills were before the defunct Assembly with that object; but they were either withdrawn or strangled in the Council, for fear of encroaching on the prerogative of the Crown. Another bill is now before the Assembly, to regulate the currency. Its imperfectness, however, are so numerous, that it amounts to nothing. What we want is a statute adopting a decimal currency, causing our courts and all the public departments to do business in dollars and cents.

The bill now under discussion is a rehash of the first Canadian act, before the decimal currency was adopted there as the only mode of keeping public accounts. Our home and principal foreign trade being done in a decimal currency, to which no one objects, whilst everybody opposes the pence table, it causes great inconvenience in appealing to our Courts to be compelled to alter the common and accepted currency for one not in popular use. Accounts are sued by the pence table; the costs are taxed by the pence table; and paid over to the litigant by the pence table. In transacting business in other departments, a like inconvenience occurs; so the sooner the evil is remedied the better.

What is to be effected is to make the United States' currency a legal tender. Having no mint of our own, and not likely to have one very soon; receiving our circulating medium principally from San Francisco as a return for our gold exports, in the currency of the United States, it is very desirable that the weight and fineness of the American Gold Eagle be made our standard as well as a legal tender. And from that standard, the value of other foreign and British coin should be proportioned. Such a course might be rubbing against the grain of some; but it appears in our situation to be the only practical course, and what is practical deserves to be adopted.

**THE ACCIDENT TO THE "SATELLITE."**—The cause of H. M. S. Satellite running on a rock at Nanaimo, a week ago, was owing to one of the buoys which marked out the channel having floated off, and another having been placed in a different position, thereby deceiving the commander as to the proper course. The vessel ran on the rocks about 2 o'clock in the afternoon, and floated off again about 9 in the evening. She struck easy, and sustained no material damage.

**THE ROTHWELL CASE.**—Wm. Rothwell, of Esquimalt, pleaded guilty to the charge of violence towards his wife, as described in Thursday's Colonist, and was bound over in the sum of £100 to keep the peace for 12 months.

**A "TALK" WITH THE INDIANS.**—A large number of the Simpson, Hyter and Tongas braves waited upon Governor Douglas yesterday afternoon, at the Government House. The Rev. Mr. Duncan, a missionary from the Simpson country, acted as interpreter. The Governor told them the measles would soon be among them, if they did not leave, and cause many to die. The savages replied that they were not afraid; that they were liable to die at any moment, and that they might as well go off by an attack of measles as any thing else. They were then told that a change would be made in their situations here; that places would be allotted for their residences; the tribes would be kept apart; a poll-tax levied on each person of so much a month, to support a police; and that they must erect suitable houses on the reservations, under the instructions of an Indian Agent. One of the Hyters complained that his people did not understand the Simpson language; and addressed those of his tribe present, saying that Governor Douglas was telling the Simpson and Tongas tribes to exterminate the Hyters. This fellow was very profuse in his language and gesticulations; but finding his words had no effect upon his people, indignantly withdrew. The Governor went on to say that every Indian found drunk should be punished; if he stole he should be whipped; and that if a white man or Indian was killed, the perpetrator would be hung. A Tongas Indian present complained that their chief had been killed a short time since by "Captain John," of the Hyters, and stated that according to their usages, "Captain John" must be killed in revenge. He was told that if he made complaint to Judge Pemberton, a warrant would be issued for "Captain John's" arrest. The Tongas promised to do so to-day; and it is very probable warm times may ensue in case of an attempt to arrest this famous chief. The Tongas and Simpson expressed themselves well pleased with the regulations, and withdrew to their homes. The Hyters are to visit the Governor at some future time for a "wawaw." Let us see if the authorities will have the firmness to carry out these salutary laws.

**DEATH UNDER SUSPICIOUS CIRCUMSTANCES.**—J. Henry Johnson, an old settler on this Island, and formerly engineer of the Beaver, died about half-past ten o'clock on Thursday night, under peculiar circumstances. It appears that Mr. J., accompanied by his wife, visited Port Townsend, a short time since, and remained there until Thursday morning, when they embarked on the steamer Eliza Anderson for this place. Upon coming on board, Johnson seemed to be in the enjoyment of good health, but after about half the distance to this place had been accomplished, he was suddenly taken sea-sick, and soon afterwards sank into a state of insensibility. Upon the arrival of the Anderson, on the same morning, Dr. Dickson was called upon to attend the sick man, and he was conveyed to the Colonial Hotel, where he was seized with violent spasms, and gradually sank until half-past ten o'clock P. M., when life became extinct. There are numerous stories afloat as to the cause of this sudden death. The officers of the boat say that deceased drank considerable on the way over; while Mrs. Johnson affirms that he drank little after leaving Port Townsend. Coroner Dickson summoned a jury yesterday afternoon, to hold an inquest upon the body; and evidence will be taken in the Police Court room at 12 o'clock to-day. A post mortem examination will be held, and if deemed necessary, the stomach of the deceased will be sent to San Francisco for chemical analysis.

**SELLING LIQUOR WITHOUT A LICENSE.**—Wm. Parsons, an old London policeman, residing on the Metchosin road, about six miles from town, has long been suspected of the habit of regaling wayfarers at his farmhouse with prime "mountain dew," and has always evaded the payment of the usual license. Numerous traps have been set for him by ambitious police officers; but all have heretofore failed in catching him. On Sunday, however, officer Trura, in citizen's dress, went to Parsons' house, and purchased of that unsuspecting whisky-seller two glasses and a bottle of the "dew." Returning to town, a warrant was procured, Parsons arrested the next day, and yesterday fined fifty dollars for selling liquor without a license.

**RACES ON THE FOURTH OF JULY.**—All owners of horses will please take notice that the Queen's plate (in specie) that was not run for on the 24th of May last, will be open to competitors on the 4th of July. Full particulars of that and other stakes, matches, etc., to be run for on that day, will appear in Tuesday's Colonist.

The Panama will leave at 7 o'clock to-morrow for San Francisco.

A Regatta Club is to be formed at New Westminster.

**THE "DESERTER" WATKINS.**—This man, claimed by Capt. Woodruff, U. S. A., as a deserter from his command at Simlahmo, W. T., was before Chief Justice Cameron on Thursday. After hearing arguments, Justice Cameron decided that the man could not be held. Capt. Woodruff, who appeared on the part of the U. S. Government, announced his intention of bringing the affair before the department at Washington, in order that the matter might be settled between the two governments, and thereby prevent a repetition of any such occurrences.

**THE NET CASE.**—The charge against Capt. Tucker, of the schooner General Harney, for stealing two nets from Clover Point, about six weeks ago, was heard yesterday in the Police Court. Tucker pleaded guilty to the charge of taking the nets; but says that in hauling up the anchor of his vessel they were found fastened to its flukes, and he supposed they had no owner. The case was remanded for one week, in order to give Tucker time to restore the nets to the owner; failing which he will be prosecuted for grand larceny. In the meantime he is admitted to bail.

**ANOTHER MURDER.**—A small family of Hyter Indians have been located, for some time past, near Major Bay, and have been employed in the ship-yards in the vicinity. On Wednesday night, some skulking rascals belonging to the Songish tribe crossed the Bay in a canoe, and inserting the muzzle of a gun through a crevice in the side of one of the lodges, blew out the brains of one of the Indians; and quickly regaining their boat, recrossed to this side without injury.

**FOURTH OF JULY.**—Extensive preparations are being made on the Sound to celebrate the anniversary of the Declaration of American Independence. A regatta will come off in Port Townsend Bay, and the Steilacoom folks are preparing for a grand barbecue. We learn that many of our American residents will go over in the Anderson in time to take part in the festivities of the occasion.

**THE WEEKLY COLONIST.**—Copies of the WEEKLY COLONIST, ready for mailing may be obtained at 12 o'clock to-day at the book stores of Messrs. Hibben & Carswell and W. F. Herre, Yates street, and at the publication office, Wharf street. This number will contain a full summary of the news from the mines, local items, Assembly proceedings, etc., etc., and will serve as a valuable medium of intelligence to parties abroad who may seek for information in regard to the resources of British Columbia and Vancouver Island.

**FALL OF A WHARF.**—The H. B. Co.'s wharf at Nanaimo, built some two years ago, gave way with a crash on Tuesday last. One man only was on the wharf at the time; he was rescued with difficulty, but sustained some severe injuries. The Satellite, lying in the harbor at the time, sent off several boats to the assistance of the townspeople.

**THE SATELLITE.**—H. M. S. Satellite arrived from Nanaimo on Thursday. She made the trip in eight hours. The fuel used was Newcastle coal (from an Island nearly opposite Nanaimo) and was found superior to any heretofore used in these waters.

**ARRIVAL FROM THE RIVER.**—The Wilson G. Hunt arrived from New Westminster about five o'clock on Thursday evening. She brought \$2,500 in dust, per Ballou's Express. Only five miners came down. The news from above is unimportant.

**PROCLAMATION.**—The proclamation giving to New Westminster a Municipal corporation, is to be issued next week.—W. F. Times.

**THE "J. T. WRIGHT."**—This new steamer, built a short time ago, at Port Ludlow, has arrived safely at San Francisco, where she is much admired.

**ARRIVAL.**—Dougald McTavish, Esq., a chief factor of the Hudson Bay Company, arrived yesterday on the Panama, from a visit to England.

H. M. surveying steamer, Plumper, will leave for the Northwest Coast shortly, on a surveying expedition.

We are under obligations to Taylor's Victoria and Port Townsend Express, for a late number of the P. T. Register.

**SAVED BY HOOPS.**—A lady in this place, says the Grass Valley (Cal.) National, during the last storm, was struck by lightning. Nothing saved her life but the hoops she wore, around which the lightning played until it spent itself harmlessly in the surrounding air. She felt the effects of electricity powerfully, and her right arm for a few moments was powerless. So, crinolines is of some use, after all.

Russia has found a commercial opening for her stores of ice. A line of vessels on the Caspian now carry that commodity to the port Bender Buschir, to the great refreshment of all Persia, where sherberts are the tap, and ice has more worshippers than fire.

## Collegiate School for Boys,

## VICTORIA.

VISITOR—The Bishop of Columbia and Vancouver Island.

HEAD MASTER—The Rev. A. C. Garrett, B. A.

**THIS SCHOOL WILL BE OPENED** (D. V.) on MONDAY, the 28th inst. in the Collegiate School Room on Church Way. It will be conducted on the plan of the Grammar Schools of England, and is designed to qualify for the Learned Professions, Commercial and Mercantile pursuits, and the Universities.

The course of Education will comprise Religious and Moral Training, the English Language in all its Branches—Reading, Grammar; Penmanship, Geography, History, Composition, and General Literature; the Classics—Greek and Latin; Modern Languages—French, Italian and Spanish; Arithmetic and Book-keeping, Mathematics, the Elements of Natural Philosophy and Drawing.

Boys will be admitted from the age of seven and upwards.

School Fees are fixed for the present at \$100 per annum, payable quarterly in advance.

There will be two vacations in the year.

Pending the arrival of a complete supply of School Books Maps, Globes, Diagrams, etc., now on their way from England, boys will be required to provide their own Books. When these books actually come to hand, they will be issued to the pupils at moderate prices.

Prospectuses and further information may be obtained by application to the Rev. A. C. GARRETT, Fort street, Victoria.

N. B.—Arrangements will be made, as soon as practicable, for the accommodation of Boarders in Private Families, carefully selected.

## House of Assembly

THURSDAY, June 21, 1860.  
At thirteen minutes past three o'clock, the Speaker took his seat; and no quorum being present, adjourned the House until Friday, June 22d, at 3 o'clock, P. M.

The members present, at the time of adjournment, were the Speaker, and Messrs. Foster, Cary, Waddington, Crease, and Coles, and Franklin in the distance, crossing James' Bridge.

FRIDAY, June 22d, 1860.

House met at twenty minutes past three. Present—Speaker Helmecken, and Messrs. Cooper, Waddington, Franklin, Cary, McDonald, Tolmie, Crease, and Green.

The Speaker read messages from the Governor on the following subjects: Acknowledging receipt of resolution of the House asking for the removal of the Northern Indians, and promising early attention to the matter; stating that he had laid the resolution of the House, asking that the doors of the Privy Council may be thrown open to the public, before the Council; advising the House that the Oaths Bill was in the hands of the Council; and communicating a dispatch from the Home Government, in which the Duke of Newcastle approved of His Excellency's action in the matter of the Stamp grant; but stated that the grant is not to be for more than 15,000 acres, and cannot be completed until the retransfer of Vancouver Island to the Crown.

The Speaker also read a message in reply to the resolution of the House inquiring what correspondence had passed between the departments relative to the passage of monies paid over to the Land Office during the seven months ending Dec., 1859. The message stated that no correspondence had taken place on the subject.

A message was also received from His Excellency, in reply to House resolution asking what sums had been demanded from the Hudson Bay Company for colonial purposes, by the Governor, during the months of April and May, 1859. From the message, and accompanying correspondence, it appeared that two sums—one for \$708, and the other for \$24—had been demanded from the Chief Factor of the Company during those months, but had been refused, on the ground that the obligations of the Hudson Bay Company to the colony had ceased.

Mr. Tolmie's motion that a committee be appointed to draw up an address to Her Majesty setting forth the position of the inhabitants of this colony in regard to the Indians, was adopted.

House went into Committee on the bill to improve the breed of live stock, Mr. Franklin in the chair. The bill was passed by the Committee, and reported complete to the House.

House then went into Committee on Mr. Waddington's resolution to consider the propriety of amending the liquor license law.

Mr. Waddington offered the following: That the Committee recommend to the House that a bill be brought in to amend or replace the present liquor license law.

Mr. Crease offered an amendment as follows: That the House consider that it is expedient that the present liquor license law should be altered, as soon as the deficiency in the revenue, that may be anticipated from a reduction in one of the duties imposed by the law, is otherwise provided for. Adopted.

The Committee rose, and the House adjourned to Monday, 25th inst., at 3 P. M.

**WHISKY DEALER SHOT AT DUNGENESS.**—John Ross and G. Allen, the two men who were in possession of the schooner Black Diamond, at the time she was seized by Inspector Bartlett, were complained of before the U. S. Commissioner for selling whisky to Indians. Deputy Marshall Armstrong being absent on duty in Island county, the Commissioner appointed H. N. Steele as special deputy U. S. Marshall, and sent him with Mr. C. Howard assistant, to arrest Allen and Ross at Dungeness. On their arrival, they were obstructed in the discharge of their duty by certain citizens of Dungeness, who surrounded them, and in a most boisterous manner, brandished their guns, swearing that no persons from Jefferson county should arrest a man in Clallam county. During the scuffle that ensued, Mr. Howard accidentally shot himself in his right leg, by having his pistol knocked down while trying to arrest Allen. By the judicious advice of Judge Chenoweth, who was at Dungeness, the mob was quieted, and Allen started off with Mr. Steele for the vessel which was to bring him to Port Townsend; but after proceeding a short distance, he refused to go any further, and on his attempt to run, Steele shot him in the thigh. Allen and Ross were then brought to town and placed in confinement. Drs. O'Brien and Kuhn dressed Allen's wound, which is merely a flesh wound, and not dangerous.—*Port Townsend Register.*

**BREACH OF PROMISE.**—A queer case of breach of promise lately came before the Detroit, Mich., Courts. A Miss Haver was courted by a Mr. Southern, a pork butcher, who in a fit of gushing tenderness, gave her a litter of six little pigs, and promised at the same time to marry her when they were fit for killing. It is needless to say how she reared them. After five months he came for them and drove them away. He then refused to put the ring on her finger, although he put a ring in every one of their noses, to prevent the little grunters from grubbing up his potatoes. She sued him and got a verdict of the value of the six pigs. She thus lost the hog!

**THE TRAITOR OF SOLFERINO.**—The Augsburger Allgemeine Zeitung states that since the suicide of the Austrian General Eynatten—committed in consequence of the discovery of great fraud perpetrated by him—it has been ascertained beyond doubt that it was through his agency the French and Sardinian armies became apprised of the premeditated attack of the Austrians at Solferino. It will be remembered that the Austrians expected to take the allies by surprise, and were not a little surprised themselves at the defeat which they sustained.

**THE PYRAMID LAKE FIGHT.**—It appears that of the 106 men who went out to fight the Pah-Utes all but 30 were poltroons, and that the defeat and slaughter of a portion of the brave whites was the result of the cowardice of the 76 poltroons. Why do not the people of Carson publish the names of each class, so that the one may receive the reward due gallant men, and the other the execration of all men?—*Shasta (Cal.) Courier.*

**Lunatics live proverbially to a good old age, and one of the proverbs, upon which the fact is founded, is we suppose the old household truism that "cracked vessels last the longest."**

## Adulterated Liquors.

A short time ago we published a synopsis of a lecture, delivered in New York city, "showing up" the immense amount of adulterated liquor sold in the States. Here is another article, bearing on the same subject which comes down still heavier upon the deleterious mixtures:

Dr. Hiram Cox, the Cincinnati Inspector of Liquors, has for the last week been lecturing in Philadelphia on the horrors of the trade in strychnine whisky. This gentleman was appointed by the authorities of Cincinnati to dive into the grog shops and liquor stores there, and to apply chemical tests to the liquor they had on sale. Though hampered and opposed at every turn, yet he was not to be thwarted. The revelations which followed his investigations were perfectly astounding, carrying consternation even amongst the drunkards, and so diminished the sale of liquor, by proving that nineteen-twentieths of it was deadly poison, that numerous distilleries were closed for want of business, and the liquor dealers besought him to quit, declaring that he had cut down their sales \$1,000,000 per annum. He showed that most of the liquor sold in Cincinnati was so highly charged with deadly acids, that it immediately attacked and corroded a knife blade, and in some cases left on it a coating of copper, as if deposited by a battery. In nearly 1,000 grog shops and stores where he applied the test, he found the liquors adulterated with poisonous ingredients. He mentions a score of young men who have been sent to their graves by less than three months' drinking of this poison. Older men have been killed off by dozens in the same way. Two-thirds of all the insane cases in Cincinnati proceed from the same cause, many of the being boys under 19 years of age. One of them became incurably insane by a single debauch on this adulterated stuff. Much of the liquor inspected contained only 17 per cent. of alcohol, when it should have contained 40; the rest being represented by sulphuric acid, nitric and prussic acid, nitric ether, fusil oil, nuxvomica, Guinea pepper, and other pungent poisons to give it strength. These compounds Dr. Cox pronounced so deadly that a single pint was sufficient to cause death. The vendors were accordingly prosecuted, punished, and their doggeries closed. The very few who were found to be selling good liquor, were allowed to continue. But the effect of these wholesale exposures on the traffic was most salutary. Thousands immediately quit drinking on learning that nothing but poison was dealt out to them. Other cities need purification as much as Cincinnati, as there are tens and hundreds of thousands of doggeries in this country in which the same rot-gut compounds are sold.

**AGGRAVATED POLYGAMY.**—John Iverson was recently arrested and imprisoned at the South for aggravated polygamy; he had thirteen wives. The daughter of the jailor, whose hospitality this insatiable polygamist was enjoying while awaiting trial, believed him innocent, pitied him, loved him, opened the prison doors, fled with him, and became his fourteenth wife. After eight days of domestic bliss the husband disappeared, and left neither trace nor money behind. A reward was offered for his capture. A description of his fascinating person was circulated, and he was recognized in a village tavern by a man who thought of the reward offered, and set about preparing his toils for the victim. In order to instil confidence into his breast, he made his acquaintance, invited him to his mansion, and then went off to procure legal assistance. When he returned his home was deserted alike by his intended prey and his own wife, whom Iverson led astray. A wretched man suggests that a proper, though a terribly severe punishment would be to compel this polygamist to live with his fifteen wives at once.

**A young lady, who had an aunt in prison, sent her the picture of an animal, an antelope, as a hint what to do. The aunt sent back the picture of a fruit—a cantelope.**

**CAMELS.**—A project is on foot to employ camels in carrying freight over the Sierra mountains.

## BIRTH.

In this town, on the 22d inst., the wife of Henry Rhodes, Esq., of a daughter, who died on the 21st inst., the wife of Capt. Cooper, of a daughter.

## DIED.

In this town, on the 21st inst., JOHN HENRY JOHNSON, aged 50 years.

His friends are invited to his funeral, which will take place this day (Saturday), at 2 o'clock, P. M., from the Colonial Hotel, Government street.

## MISCELLANEOUS.

## REMOVAL.

Select School, Broad Street.

## NOW OPEN.

**MR. E. MAILLAINDAINE HAS REMOVED** his school to commodious premises, next door to the Clifton House, Broad street; which offer the advantages of a roomy play-ground and gymnastic apparatus—swinging rings, horizontal and parallel bars.

All the usual Elementary and more advanced branches of an English Education, French and Drawing, to which it is proposed to add the study of Latin and Greek, the Spanish and German Languages, and Music; for which competent Assistant Teachers will be secured.

**HOUSES.**—Present hours half-past 9 till 3. Terms—Average, \$10 per 13 weeks; monthly, about \$1—payable in advance. For the branches of Education last named above, \$1 50 per month extra.

## EVENING SCHOOL.

For Adults, as usual, half-past 6 till 9 P. M. Terms as Day School.

**PRIVATE LESSONS** on Saturdays, by Parents and Guardians (or their agents) in Victoria, British Columbia and California, are respectfully requested to call for Prospectuses, to be had on application.

Messrs. les Freres ont invites a faire un cours d'Anglais le soir; et a envoyer leurs enfants chez M. Maillandaine. my17 lm

## CITY TRADE REPORT.

FRIDAY EVENING, June 22, 1860.  
Trade has been unusually dull during the day. The Hunt carried up little else than China freight. Flour is still declining; 100 bbls Golden Eagle Mills sold today at \$5 50 per bbl. The large amount of Oregon, together with heavy shipments of Golden Gate and other brands now on the way, have had the effect of creating the present depression in the Flour market. Other staple articles seem to hold their own. New Oregon Bacon, very choice, is selling at 18c; States do, 14L, new, firm at 17 1/2c; Land, 16 1/2c; China No 1 Sugar, 8 1/2c; do Rice, 5 1/2c.

**Desirable Residence**  
**FOR SALE.**

**PEREMPTORY SALE.**—NORRIS, COX & CO., Commission Merchants and Land Agents, beg to inform the public that they have been requested to sell that beautifully located Cottage on street, adjoining the residences of Captain Dodd and John Cox, Esq., formerly the residence of Mr. Angio. The house contains Drawing Rooms, Parlors and several Bed Rooms. In the rear of the Cottage are stables, out-offices and garden. A better situation can scarcely be imagined, as it is likely to be long to be the centre of the town, and therefore worthy the attention of capitalists.

N. C. & Co. guarantee a good title. For tickets of admission to view the premises, apply at their Office, on Yates street. ju15 tf

### L. D. LOWENBERG,

REAL ESTATE AGENT,

East side of Government st., bet. Yates & Johnson. WILL PAY PARTICULAR ATTENTION TO selling, purchasing, and leasing property, to negotiating loans, and transacting everything connected with Real Estate business.

Maps of all the different Districts on the Island may be seen at his office. Parties desirous of purchasing Homesteads, or making investments, will find on my Bulletin Board Town Lots on nearly every street; Farming or Gardening Land in every District; some of which afford a rare chance for investment. Conveyances, leases, &c., drawn up at reasonable rates. my23-1
